

SAVE MONEY ON HEALTH CARE

ENHANCED BENEFITS FOR NATIVE AMERICANS

Did you know Native Americans are eligible for extra savings on individual and family insurance plans through the Marketplace?

ZERO COST SHARING PLANS

If your income is between 100% and 300% of the federal poverty level, you can enroll in a zero cost sharing plan. That means you won't have to pay any out-of-pocket costs—like deductibles, copayments, or coinsurance.

WHAT IF I ALREADY GET HEALTH CARE FROM THE INDIAN HEALTH SERVICE (IHS)?

You can stay with your IHS provider, get care somewhere else or both! But health insurance covers many things the IHS does not provide. With health insurance, you can see a specialist, get care for covered services (no out-of-pocket costs) without an IHS referral, and get health care away from home.

EARN REWARDS

When you choose U of U Health Plans, you can get rewarded for staying healthy! Earn \$50 for flu shots, well child visits, adult preventive visits, and breast cancer screenings.

FREE PREVENTIVE CARE

Your health plan will cover preventive care at no cost to you. This includes yearly wellness visits, vaccines, cancer screenings, and even some medications.

2024 U.S. Federal Poverty Guidelines

FAMILY SIZE	ANNUAL INCOME
1	\$15,060
2	\$20,440
3	\$25,820
4	\$31,200
5	\$36,580
6	\$41,960

If more than 6 in household/family, add \$5,380 per additional person.

LOW OR \$0 MONTHLY PREMIUMS

With a zero cost sharing plan, you'll pay little to nothing for your monthly premiums.
